

VIRTUAL LEARNING *Academy*

813 Dillgence Drive, Suite 100, 23606 • (757) 591-7408

Thank you for being a valuable member of the Virtual Learning Academy this school year. As a reminder Virtual Virginia has a unique calendar and all virtual classes will end on **Friday May 30**. All NNPS Chromebooks must be turned in at Point Option from 8AM-3PM **Monday June 2 or Tuesday June 3**. If the Chromebook is not returned it will be disabled, and families will receive an invoice through their email for any missing or damaged devices, cases, or chargers. Please see [page 38 of the NNPS Rights & Responsibilities Handbook](#) for more details. Report cards will be available on StudentVUE & ParentVUE on **Tuesday June 10**.

While our Virtual Learning Academy was established in 2021, this was the first year we partnered with Virtual Virginia to provide the instruction. Because of this new collaboration, NNPS has completed academic program reviews after each marking period to ensure students choosing to learn virtually are making adequate progress. The final part of our academic review comes after end-of-course SOL testing is complete. It is pivotal your student participates in all VDOE mandated SOL tests (as shared with families when they applied to VLA on our application). This is the last week of Spring testing so please contact the site-testing coordinator at your student's homeschool or Ms. Frazier if you have questions or need support.

We appreciate your patience and flexibility as we transitioned to Virtual Virginia providing the instruction for our Virtual Learning Academy students this year. We have used this school year to establish best practices and collect valuable information we would like all families to be made aware of. This will be shared with all Virtual Learning Academy families through an asynchronous, online orientation this summer. We will share more details with families continuing in the VLA soon. Families should plan to complete this required training in July. Chromebooks for next year will be distributed to VLA students in early August. Lastly, to prepare for next school year please review the [Virtual Virginia calendar for SY25-26](#). Virtual Learning Academy students should mark their calendars and be ready to start their Virtual Virginia classes on **Thursday, August 14, 2025**.

If you have any questions over the summer you can reach out to our Virtual Learning Academy team by calling Point Option at 757-591-7408 or emailing staff members directly (links can be found on our [VLA website](#)).

Congratulations on your student's success this year!

Mrs. Stephanie Bean
